Life Progressions

We are born into an existing progression of change, through which we evolve and grow during our lifetime. Being conscious of our position in this succession of change helps us more clearly define and understand ourselves. An awareness of our current life situation relative to a larger, evolving chain of events helps us negotiate the challenges that confront us in our daily lives.

This Life Progression report (based on the technique of Secondary progressions) describes experiences and understandings relative to particular aspects, thus depicting the effect of these planetary aspects on an individual. The report covers a period of at least one year. The time period covered by the text varies according to the nature of the astrological event associated with each paragraph. A paragraph referring to a progressed Moon will cover a much shorter period than one referring to the zodiacal sign on a progressed house cusp. This report is intended to enhance the natal chart, not to replace it. The two go hand-in-hand. The progressed chart brings to fruition the promises of the natal chart.

<p style="text-align: center;">Report for Ellen DeGeneres Your Life Progressions for Oct 30, 2007</p>

Sagittarius on the First Cusp

Others in your immediate circle are finding you easier to communicate with as your deep moods of intensity lessen. You are gradually becoming more free-spirited and open in your attitude. A former preoccupation, possibly with sex, may give way to new interests. Sports, education, or travel dominates your attention or soon will. Your new gregarious nature will draw more friends into your life. Many will be of different backgrounds, race, or nationalities. Enhancing future goals may instigate a closer look at changing vocational interests. The printing or publishing industry or large-scale communications may hold an interest. The airlines, travel agencies, or computers are another outlet. In-laws, foreigners, individuals residing in distant cities, law-enforcement agencies and legal or religious matters may play an active role in the near future. Guard the hip area against possible injury to muscles or joints. The condition of your progressed ascendant ruler, Jupiter, can provide additional insight into new circumstances and motivational influences touching your life at this time.

Mars in Capricorn

As Mars progresses into Capricorn, you will find yourself becoming more organized and your self-reliance steadily improving. There is less scattering of forces and a more serious intent to promote yourself through quick grasping of opportunities. You are likely to weigh your actions and words more carefully than in the past. At this point in your life, it appears that you don't want to jeopardize a secure position or possible advancement to positions of authority. This is an excellent placement for those seeking a position with the city government (as with the police or fire department) or in politics. The men who touch upon your life at this time will probably be older or mature in actions, of a Capricorn coloring, executives, from the past, or on the city payroll.

Mars in the First House

You're on a roll, with loads of energy to spare. You're feeling aggressive, independent, and eager to begin new projects. Just pace yourself a bit, so you don't antagonize others with abrupt and impulsive actions. There is initiative, with personal involvement in new ventures or undertakings. You are striving for independence and freedom of movement in everyday affairs. New ideas that offer exciting challenges appeal to you now. This placement reacts strongly on a personal level, where one is forced to take the lead in certain situations or activities. You may experience a noticeable lack of cooperation from others. Learn to handle tasks and arrive at decisions on your own. Exercise patience in driving, daily activities, and contact with others, as this planet can arouse the tendency toward carelessness, argumentativeness, and disputes. It is also associated with cuts, bruises, burns, migraine headaches, and accidents.

Mars Semisquare Ascendant (Prg-Nat) Nov 10, 2007

Overly aggressive and assertive actions can lead to quarrels and conflicts in personal relationships and in dealings with the general public. This attitude can make you unpopular and as a result, you may retaliate through hurtful anger. This vicious circle can be eliminated by curbing impulsive tendencies. You can be accident prone, so use care while driving and handling machinery or sharp tools. Seek medical assistance when fevers, infections, or inflammatory conditions occur.

Mars Square Jupiter (Prg-Prg) May 12, 2008

You are terribly ambitious and anxious to succeed in some new challenging and personal endeavor. In your haste to get matters underway, impulsive and hasty actions may take precedence. Without proper forethought, you can easily overextend yourself financially or plunge into unwise business ventures. This is not the time to tackle legal, in-law, or religious conflicts or to enter into disputes involving sex or race discrimination. Travel or pleasurable trips can be a source of financial drain through extravagant tendencies.

Mars Quincunx Pluto (Prg-Prg) Aug 5, 2008

You may feel a struggling conflict when trying to control the intense energy that rages within. You will have to guard against rash and hasty decisions or actions that can draw you into dangerous or violent situations. There appears to be a power struggle in which controlling (dictatorial) urges prevail. This may be initiated toward the sexual partner through acts of jealousy and possessiveness. Difficulties may arise through the handling of insurance settlements, income tax returns, alimony payments, and workers' compensation. Be selective of your sex partners, or use precautionary methods to avoid the possibility of a social disease. There may be loss or separation of a close attachment or family member. Women should be wary of men who display a hot temper and jealous (possessive) tendencies. It will be extremely difficult to break off this relationship once it takes a firm hold.

Aquarius on the Second Cusp

Your goals and aspirations are presently centered around money. It appears rather difficult to maintain a steady income. There will be periods where money comes in steadily, then suddenly there is a reversal and it goes out just as fast. You are quite inventive and often discover short cuts that make your vocational tasks easier and faster to accomplish. Your boss will notice and be interested in your technique. Don't share this knowledge without due monetary compensation. You can be too giving in this respect. Choose your friends wisely, and select constructive associations who can react favorably on personal money matters.

Moon in Aquarius

You may find yourself expressing deep concern for other people's problems and a readiness to assist them, if necessary. Your understanding and sympathetic nature has a humanitarian overtone. There is an eagerness to develop new friendships and participate in group-related activities. You may decide at this time to start or join an organization. You may feel there is a need for new outlets in your life or a complete change of direction -- a surge of personal independence to do something unique and different. If your activities have been suppressed or restricted, you may have to guard against going to the extreme and seeking the unconventional,

perhaps later regretting this break from concrete ties. It will be difficult to maintain a normal, routine existence for many unexpected events and happenings will break up the usual pattern of your life. Friends, daughter- or son-in-laws, and other people's children will either assist you or create emotional disturbances. The most vulnerable health areas are the circulatory system and muscle spasm in the calf. Note the house position of your progressed Moon to determine the area of life in which the element of the unexpected is likely to occur.

Moon in the Second House

Personal finances and movable possessions play an important role in the scheme of daily activities. The purchase of major items must be weighed against affordability. You may be forced to view your finances with an objective outlook. Determine where and how to increase personal savings and, at the same time, alter poor spending habits. This can be an emotional period in connection with monetary affairs. You may feel a threatening loss of security when finances fluctuate and bills are overdue. The motivational influences most likely to reflect on finances are revealed by the sign position of your progressed Moon.

Moon Conjunction Venus (Prg-Prg) Feb 7, 2007

This should be a pleasurable three-month period in which everything goes well. You may be feeling rather content, peaceful, and happy. Social affairs are activated with baby showers, weddings, the theater, or just dining out with close friends. Your emotions and feelings are aroused and eager for new and lasting attachments. Opportunities are favored for meeting someone special, getting engaged, married, or receiving gifts and invitations. This type of energy is especially helpful for those in the mood for interior decorating, entertaining, having their hair styled, or purchasing new clothes. A fairly good period for finances, investments, and purchases in general.

Moon Sesquiquadrate Midheaven (Prg-Nat) Feb 26, 2007

There is a possibility of undesirable changes in the domestic circle or through one's career. Emotional instability can push you into seeking an ultimatum from those you love the most. A new boss with whom you do not get along can cause emotional upsets. Affairs of grandparents or a parent may require your personal attention and concern. You may find yourself being drawn into the unpleasant task of resolving a family crisis. Parents can be quite demanding of your time and attention during this trend.

Moon Semisquare Ascendant (Prg-Prg) Apr 4, 2007

Emotional and domestic difficulties, especially where women are concerned. They are likely to be a source of irritation or interference with personal plans. This could result in a break-up of close emotional ties -- perhaps a separation from a loved one or parent. If running for public office, it would be wise to seek the counsel of someone experienced in public relations. Your own image will not project as well as you would prefer. A PR person can help to smooth the rough edges.

Moon Sextile Ascendant (Prg-Nat) May 15, 2007

Emotional stability and good judgment can open the door to new opportunities for advancement. Seek positive changes in all directions of life, whether vocational, domestic, or

personal. You exude great rapport at this time. Social contacts with women, and the general public, can produce beneficial results. Family matters should be on even keel, with a general feeling of contentment.

Moon Trine Midheaven (Prg-Prg) Jul 19, 2007

This is a three-month period in which one should take advantage of all opportunities for advancement and positive career changes. You have great rapport with bosses, those in authority, and the general public. This is a good time to contact those who can help you rise to a higher social status. You may receive an award or recognition for a personal achievement, possibly get your name or photo in the local newspaper, or appear on television or radio.

Moon Sextile Moon (Prg-Nat) Jul 29, 2007

Beneficial changes of minor consequences should make for an interesting period. This is a good time to seek occupational changes, make new friends, travel, move, or purchase real estate. Women, in particular and people in general will sense your emotional sensitivity and possibly be of beneficial assistance in personal or business interests.

Moon Sextile Saturn (Prg-Nat) Dec 19, 2007

Personal affairs appear to be more secured and stable than they have in the past. You are developing a thoughtful, considerate, sincere, and persevering attitude. Those in authority may recognize your earnest persistence and decide to advance you to a position of authority. Make the most of this trend and be ready to accept added responsibilities that promise worthwhile accomplishments and long-range benefits. New friends that enter your life during these three months are likely to be faithful, loyal, and possibly of benefit.

Moon Sextile Mars (Prg-Nat) Feb 14, 2008

There is likely to be a noticeable increase of energy flow and activity into your life during the next three months. This is a good time to accept new and challenging ventures that you would not have considered in the past. Take advantage of your good health and increased vitality. Make positive changes in your personal affairs. You can advance through the application of your own merits and efforts during this trend.

Moon Semisquare Mercury (Prg-Prg) Feb 16, 2008

Your mind is not as alert as it should be, nor are you thinking in logical terms. Give careful consideration to what you say or put in writing. Faulty judgment can place you under heavy burdens or obligations, so it is best to sign nothing of importance during these three months. Avoid possible disputes or misunderstandings with relatives. It may be unwise to travel or consider the purchase of a car. In general terms, you should ignore idle gossip, confide in no one, and be your own counsel.

You exude great rapport at this time. Social contacts with women, and the general public, can produce beneficial results. Family matters should be on even keel, with a general feeling of contentment.

Moon Trine Jupiter (Prg-Prg) Aug 22, 2008

One of the most opportune periods for financial, business, and social affairs. Use a positive and constructive approach with this trend, commencing all new undertakings that promise good fortune and opportunities. Do all you can to improve personal conditions. This can be a milestone in which goals and objectives take new and favorable directions. This is a good time to speculate, invest, and make beneficial contacts or ties. Consider new educational pursuits or make travel plans.

Moon Opposition Pluto (Prg-Prg) Aug 28, 2008

Emotional outbursts may be unleashed against those whom you feel are trying either to dominate you or to create changes that are upsetting to your environment. Although these changes may be necessary in the scheme of things, you may find it difficult adjusting to them. The altering of these conditions may result in separation from loved ones, and finding it hard to let go. It may be parents moving to a distant city, a child getting married, loss of an older member of the family, or a divorce. Whatever the circumstances, your domestic and emotional feelings will undergo an intense change.

Whatever the circumstances, your domestic and emotional feelings will undergo an intense change.

Moon Semisquare Moon (Prg-Nat) Oct 26, 2008

Take time out for frequent rest periods or brief naps as your vitality and energy level are rather low. The next three months are not the best time to seek favors from women in general. Emotional instability may cause one to over-react to minor, yet critical statements made by others. Family members may not be as cooperative as you would like. It is an emotionally trying time, in which you should seek quiet periods of isolation, and avoid public contacts for a while.

Moon Sesquiquadrate Midheaven (Prg-Prg) Nov 26, 2008

There is a possibility of undesirable changes in the domestic circle or through one's career. Emotional instability can push you into seeking an ultimatum from those you love the most. A new boss with whom you do not get along can cause emotional upsets. Affairs of grandparents or a parent may require your personal attention and concern. You may find yourself being drawn into the unpleasant task of resolving a family crisis. Parents can be quite demanding of your time and attention during this trend.

Moon Trine Neptune (Prg-Prg) Dec 24, 2008

Your psychic ability may be favorably attuned to positive and accurate impressions. Unusual interests may draw you into studying psychic awareness, yoga, mind control, ESP, psychology, or photography. New individuals may enter your life who possess a sensitive, caring nature.

Venus in the Second House

You may find yourself in a position in which there is a blending of the financial with social or public affairs. Diplomacy, correctness in manner, finesse, and charm will be a big plus in aiding financial gains, especially in areas requiring public contact. Although you like the good things of life and may spend quite a bit on clothes, furniture, and entertainment, your innate sense of security will not permit you to go overboard to the point of extravagance. You will have the ability to build up financial reserves and resources, for this placement can bring a good deal of success in all monetary pursuits. Women and partnerships provide the backdrop for monetary gains or losses.

Venus Sesquiquadrate Midheaven (Prg-Nat) Dec 15, 2007

Feelings and emotions are apt to undergo a good deal of stress. There could be difficulties in domestic affairs, romance, marital, or business partnerships. Progress in business or career matters is limited and often accompanied with financial difficulties. The affairs or health problems of a parent may be cause for concern. Hurt feelings, disappointments, or broken attachments may occur with female friends or close associations.

Pisces on the Third Cusp

You are highly emotional and imaginative in your thoughts and communications. There is strength in your psychic and intuitive ability, but they can prove unreliable at times. Your mind works best when you are alone without a lot of confusion or noise to disturb your train of thought. People will sense your sympathetic nature and bend your ear with their innermost secrets. This can prove emotionally and mentally draining if it is permitted to get out of hand. Your temperament is conditioned by your environment. Arguments and discord in your surroundings easily upset your nervous system. If you feel the need to escape from the harshness and reality of life, take up the study of yoga, music or dancing lessons, art, or other forms of creative expressions. This sign is associated with mental, emotional, or physical problems surrounding the affairs of a brother or sister. During this trend it is possible one may be hospitalized or have an illness that is correctable through medication.

Sun in Pisces

The psychological changes of your character, due to the progression of Sun in Pisces, are very pronounced. Your nature is slowly turning inward, becoming more sensitive, emotional, sentimental, and impressionable. Your interest in new friendships and organizational activities will lessen as the desire for isolation and solitude increases. The tendency is toward secrecy and the probability of leading a double life. New occupational interests may involve chemicals, paints, security police, hospitals, institutions, or bars. Being too trusting at this time may incur serious repercussions. False friends and secret enemies can create unforeseen problems. Individuals with clairvoyance or mediumship ability may enter your life. Relationships with men can vary from one extreme to another. Some may be sensitive, caring, sympathetic, and artistic, while others can be deceptive and perhaps too much under the influence of drugs or alcohol.

Sun in the Third House

You are resourceful, creative, and magnanimous. At times you can be quite theatrical or dramatic in your presentations, enjoying the attention it creates. There is increased ambition for success and recognition of your mental qualifications. The ability to express and communicate your ideas is extremely important to you at this time. You are eager to investigate new things, whether scientific or technical. A sense of inner pride may urge you to attain more knowledge to achieve distinction through intellectual accomplishments. Frequent short trips may be possible during this trend. Activities with close relatives and siblings are enhanced.

Sun Square Saturn (Prg-Prg) Mar 6, 2007

This a difficult and trying three-year trend in which the vitality and energy level are lower than usual. You will have to safeguard your health by taking necessary precautions. Get flu shots, if possible, and protect yourself against colds which are likely to linger on. You will have to maintain a positive outlook on life to avoid bouts of mental depression that may occur from time to time. If you feel a lack of interest in social affairs, then use that extra time wisely. Decide what it is that you always wanted to accomplish but never had the time. Then organize your life in a constructive manner around this project and work diligently until it's completed. You will triumphantly emerge from this difficult influence, with a profound project that would not have been possible before. Be realistic in your goals, and accept the fact that progress in personal and business affairs will be confronted by hindrances and delays. There may be a possible loss of friends or someone in the domestic circle.

Mercury in Aries

As Mercury progresses into the positive sign of Aries, you are becoming more expressive and assertive in your manner of speaking. You are more independent and courageous in your opinions and in making decisions. There is increased originality in thought, ideas, and intellectual adventures. There may be a strong desire for personal freedom and action, inspiring an interest in driving lessons and having your own car. Be careful of hasty or impulsive decisions that may be cause for regret later. Try to avoid possible disputes that may arise through siblings.

Mercury in the Third House

You have a quick and perceptive mentality that makes it easier to express your thoughts and ideas in speech, conversation, and the written word. You are an excellent transmitter of knowledge, for you love to exchange ideas and views on various subjects. For this reason, you would make a good instructor, lecturer, writer, or telephone operator. You may also have the ability for manual dexterity, enabling you to tackle two jobs at one time. On various occasions you will find that short distance travels, the telephone, and mounds of paper work will dominate much of your free time. One's mental attitude plays a major role in maintaining good health, so always keep a positive outlook. Don't fuss and worry so much about insignificant matters. Expect a busy time with brothers, sisters, neighbors, and community affairs.

Mercury Trine Uranus (Prg-Prg) Jul 3, 2007

Your mind is leaning toward original, unique, and inventive ideas that may instill an interest in the occult studies of mind control, metaphysics, ESP, or astrology. You may travel with friends or groups of people to attend seminars, conventions, and lectures, or share your knowledge with others. This is a good time for purchasing computers, video equipment, tape recorders, television, CBs, and other electronic gadgets. It is possible that you may be elected to an officer's position with an organization, and keep books thereof. You may form a close attachment that will in some way be of unique benefit. Unexpected travels or visits are likely in connection with brothers, sisters, and other close relatives.

Mercury Trine Uranus (Prg-Nat) Jul 1, 2008

Unexpected travels or visits are likely in connection with brothers, sisters, and other close relatives.

Mercury Sextile Venus (Prg-Nat) Jul 24, 2008

You should be in a pleasant and happy frame of mind. This influence activates social affairs, wedding invitations, and birth announcements within the family circle. Pleasant changes in personal affairs may include pleasurable short trips. You can effectively combine social and business travels. This is an excellent trend for public relations work, promotional advertising, or dealing with the general public. At times you may be called upon to attend social functions in

connection with your business or career. Women and female relatives can be of beneficial assistance, either directly or indirectly.

Aries on the Fourth Cusp

Circumstances are likely to occur in which you will have to take the lead in family matters and decisions. You (rather than your partner) are more apt to take personal control over the home base. During this trend, there may be tireless creative energy in the fixing, painting, and keeping of the home in excellent condition. Arguments can occur due to the bossy attitude of one member of the family. The sharing of a residence with the opposite sex is possible. This sign is associated with accidents or fires in the home, and surgery to one of the parents.

Taurus on the Fifth Cusp

It is possible you have a creative hobby that can be turned into a real moneymaker -- whether it is miniature doll house building, hair styling, giving music lessons, or cake decorating. Whatever it may be, look to the source for possible additional income. You have strong feelings when it comes to romance and are consistent in your affections. You have great pride in your child's accomplishments and like to endow them with personal comforts. When it comes to sports, you may be more of a watcher than a doer. You may be too cautious for investments. Your best bets would be individual retirement accounts, banks, or finance corporations. A child or your second oldest sibling may be a source of financial drain or gain.

Gemini on the Sixth Cusp

An adjustment will be necessary in your line of work. Situations are changing, or soon will. It appears that more paperwork or the introduction of new operational techniques may require additional studies. Your mental attitude will play an important role in your job duties, health factors, and relationships with co-workers.

Gemini on the Seventh Cusp

Intellectual gatherings, lectures, classes, short trips, or the communication field will introduce new individuals into your everyday affairs.
